Rishav Gupta

Ph.D. Student, Department of Computer Science and Electrical Engineering
Future Sensing and Interaction Lab, ITE 230, University of Maryland, Baltimore County

rishavg1@umbc.edu • riishavrg.github.io • Google Scholar • GitHub • LinkedIn

Research Interests

Mobile health sensing and mobile systems, with an emphasis on acoustic and ultrasonic sensing, digital signal processing, and machine learning for cuff-free cardiovascular monitoring on commodity smartphones.

Education

University of Maryland, Baltimore County Jan. 2026 – Present
Ph.D. in Computer Science *Baltimore, MD*
- Advisor: Dr. Dong Li, Future Sensing and Interaction (FSI) Lab.

University of Maryland, Baltimore County Jan. 2025 – Dec. 2025
M.S. in Computer Science *Baltimore, MD*
- GPA: 4.00/4.00. Coursework: Design and Analysis of Algorithms, Machine Learning, Neural Networks.

Manipal Institute of Technology Jun. 2015 – May 2019
B.Tech. in Information Technology *Manipal, India*
- Ranked 8th out of 132 students in the graduating class.

Research Experience

University of Maryland, Baltimore County Jun. 2025 – Present
Graduate Research Assistant, Future Sensing and Interaction (FSI) Lab *Baltimore, MD*
- **Smartphone blood-flow sensing** [2, 4]. Recovering arterial blood-flow waveforms and Doppler indices through the skin via phase-based ultrasonic Doppler; first author of the real-time demonstration [2].
- **Acoustic tissue characterization** [1]. First-author work estimating soft-tissue relaxation time from smartphone acoustic chirps and echoes, validated against laboratory indentation (phantom and human forearm).
- **Voice-scam protection** [3]. Contributed to Ultrasound Watermark, which binds live call audio to the caller's articulatory motion sensed with smartphone ultrasound.

Publications

Honors and Awards

First Place (Graduate), ACM Student Research Competition, ACM MobiCom 2026 — Oct. 2026
- For *Phonotonos*; advanced to the ACM SRC Grand Finals.

COEIT Computing for Social Good Award, Research Day, UMBC — May 2026
- One of only two awards presented across 114 posters; conferred by Dean Jeanne M. van Briesen.

First Place, Maryland NEW VENTURE™ Program Pitch Night, bwtech@UMBC — May 2026
- Awarded for *PocketCardio*, a smartphone-based cardiovascular screening venture.

Best Poster Award, CSEE Research Day, UMBC — Apr. 2026
Best Poster Award, COEIT Research Day, UMBC — May 2025

Industry Experience

Gojek (GoTo Group) — Feb. 2022 – Sep. 2024
Senior iOS Engineer — *Bengaluru, India*
- Reduced annual platform cost by $3M by replacing a third-party analytics SDK (CleverTap) with an in-house, open-source tool at full feature parity.
- Cut development time by 20% across the engineering team by automating the bi-weekly CI/CD release pipeline in Python and Shell on GitLab.
- Doubled QA throughput with a real-time Event Visualizer for verifying analytics events in situ, and cut roughly 3 MB from the app binary through SwiftSyntax AST-based dead-code detection.

Nuclei — Jul. 2019 – Feb. 2022
Senior iOS Developer and Team Lead — *Bengaluru, India*
- Founding iOS developer of FedMobile (Federal Bank); implemented 60% of shipped features, including Payments, Investments, Loans, Onboarding, and Card Management.
- Promoted to Team Lead; led four iOS developers and closed a four-month delivery gap between the iOS and Android platforms.

Hera doo — Jun. – Jul. 2018
Android Developer Intern — *Mostar, Bosnia*
- Built an end-to-end Android sales-order application from scratch, increasing field sales by 25%.

Service and Leadership

Chair, Graduate Assistant Advisory Committee (GAAC), UMBC Graduate Student Association — 2026 – 2027
Lead Volunteer, ACM/IEEE Symposium on Edge Computing (SEC 2025) — Dec. 2025
HR Head, ISTE Students' Chapter, Manipal Institute of Technology — 2017 – 2018
Co-Event Head (Acumen), TechTatva '17, Manipal Institute of Technology — Oct. 2017
Management Committee Member, ISTE Students' Chapter, Manipal Institute of Technology — 2016 – 2017

Technical Skills

Languages	Swift, Python, Java, Shell, SQL, HTML/CSS
Methods	Acoustic and ultrasonic signal processing, physiological sensing, tissue biomechanics, embedded audio, machine learning
Tools	Xcode, SwiftUI, Android Studio, Git, GitLab CI/CD, LaTeX
